

CAMPUS SUPER-APP

Your campus. One app.

27 features built for one campus at a time. Every person inside is a verified student of your college — no outsiders, no phone numbers, nothing that leaves your campus.

Open it in a browser. Nothing to install.

www.lockedincampus.online

Campus life runs on WhatsApp groups, and WhatsApp groups are terrible at it.

A message scrolls away in an hour. Nothing is searchable. "Anyone going to Katpadi on Friday?" gets lost under forty replies. You cannot run an event's attendance in a group chat, and you cannot sell a cycle to someone who joined last week and never read the backlog.

LockedIn keeps the same things students already do — buying, selling, splitting, finding, organising — and gives each one a place where it stays put, stays searchable, and stays inside the campus.

What it looks like

Everything on one screen, ordered by what's happening now.

Buy, sell and rent — only with verified students of your own college.

Gate Runner: someone already walking to the gate brings your parcel.

27 features, grouped the way students think about them

Buy, sell & rent

Marketplace

Buy, sell, and rent with verified students from your own campus.

Make an offer

Haggle right on the listing — offer, counter, deal at one tap.

Requests

Can't find it? Post what you need and let campus come to you.

Rent & lend

Per-day pricing, deposits, due-date reminders, auto-relist on return.

Student deals

Curated offers from shops around campus.

Split the cost

Group-buys

One order, one delivery fee, split between everyone who joins.

Netflix & Spotify pools

Browse open seats, join mid-cycle at a prorated share.

Cab pooling

4 AM airport run? Find students leaving the same day, split the fare.

Gate Runner

Someone's already walking to the gate — they grab your parcel, you reward them.

Your people

Clubs, chapters & teams

Leads run recruiting, positions, broadcasts, analytics and rosters — no WhatsApp needed.

Events + barcode check-in

Organizers scan college IDs at the door and get a live attendee roster.

Her Circle & His Circle

Verified women-only and men-only spaces to buy, sell, swap and talk freely.

Study groups

Course-tagged groups with their own built-in group chat.

Roommate match

Compatibility-scored matches — sleep schedule, tidiness, guests, all of it.

Crews

Private groups for roommates & friends with shared to-dos.

Daily drivers

Timetable + bunk math

One-tap attendance and the answer to “can I skip today?”

Campus board

Lost & found that auto-matches lost posts to found ones, plus notices.

Built-in chat

DMs and group rooms with context — every deal, ride and group has its thread.

Smart notifications

Class nudges when your attendance is at risk, deal alerts, event pings.

Search & alerts

One search across everything; save a search and get told when it appears.

Karma & ratings

Good actors are visible — every deal builds your campus reputation.

Campus Compass

Every building, hall and gate on a map. Works without an account.

Toolbox

33 free, legal tools — papers, courses, software, project assets.

Locked down

College email only

Every single person here is a verified student of your college.

No phone numbers

Usernames, not numbers. Your contact stays private until you share it.

Report & block everywhere

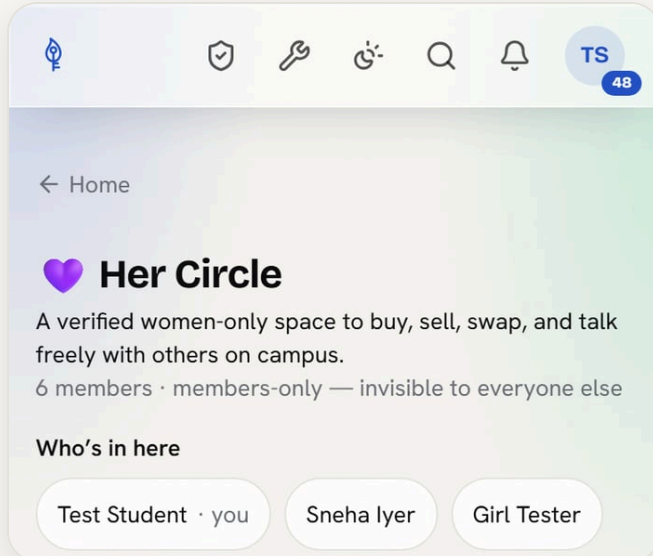

Campus moderators act on reports; blocked people can't reach you.

Your college only

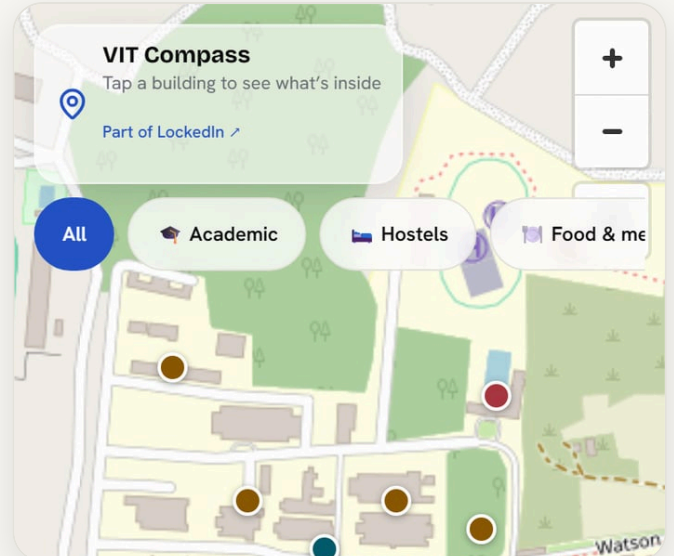

Everything you post stays inside your campus — enforced at the database.

Built for the device students actually use

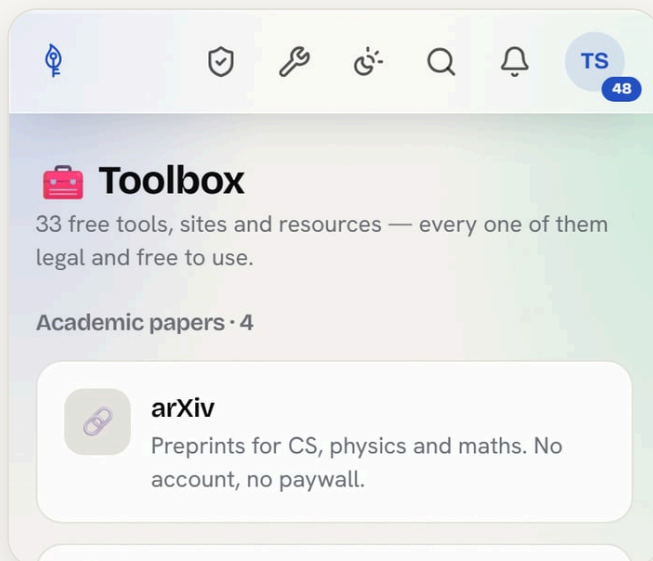

Every screen here is the real app, not a mockup.

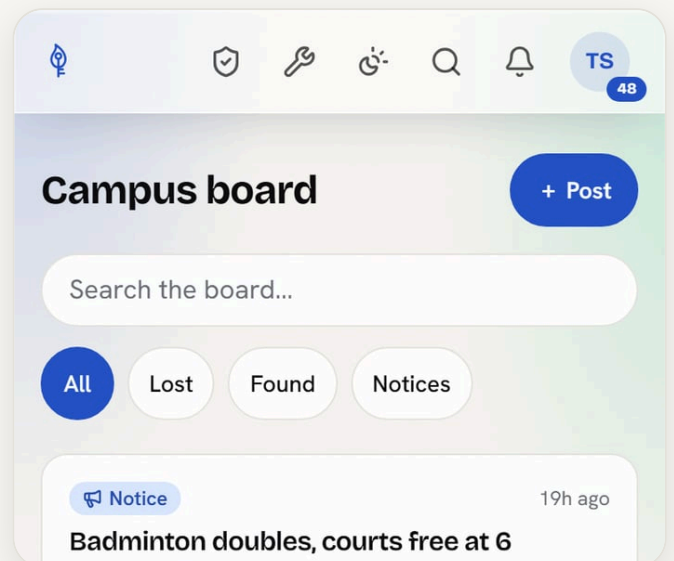

Her Circle and His Circle — members-only, invisible to everyone else.

Campus Compass: find any building, with no account at all.

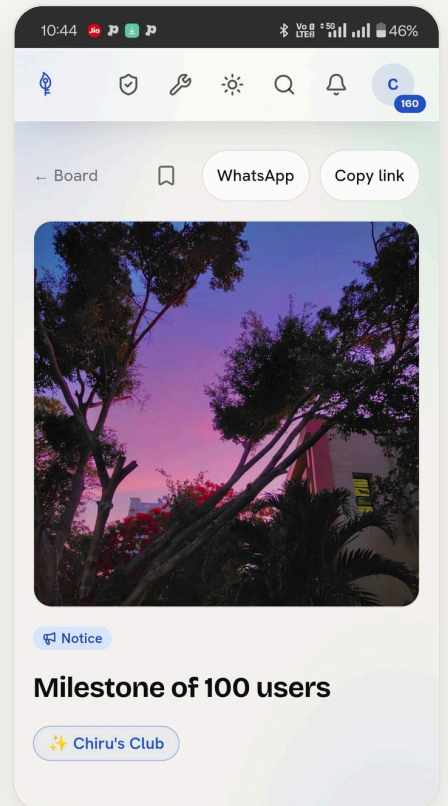

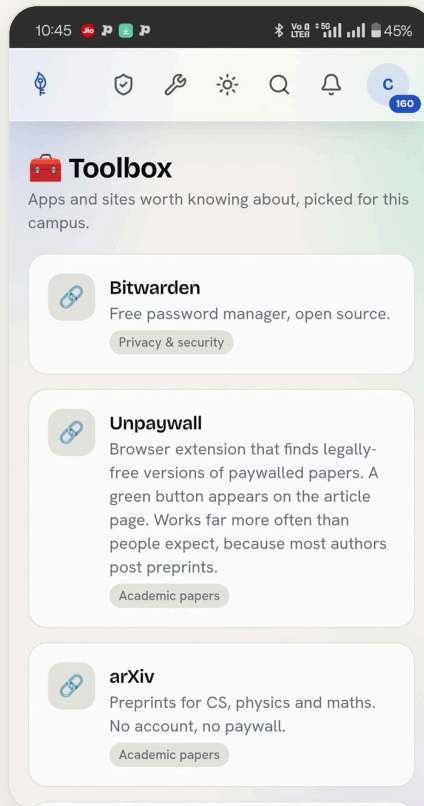

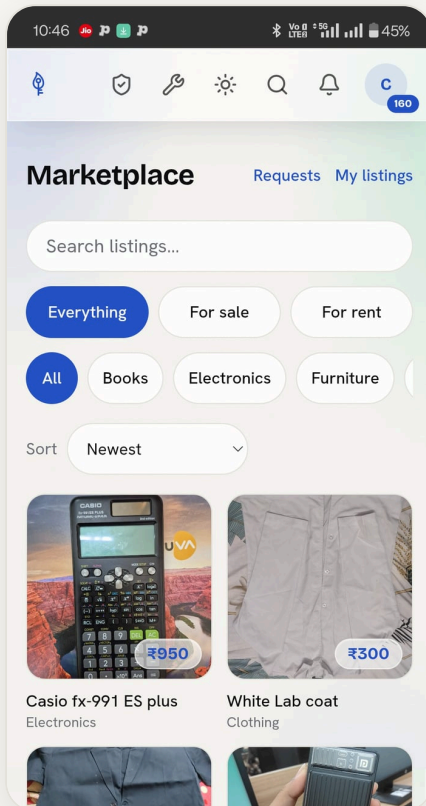

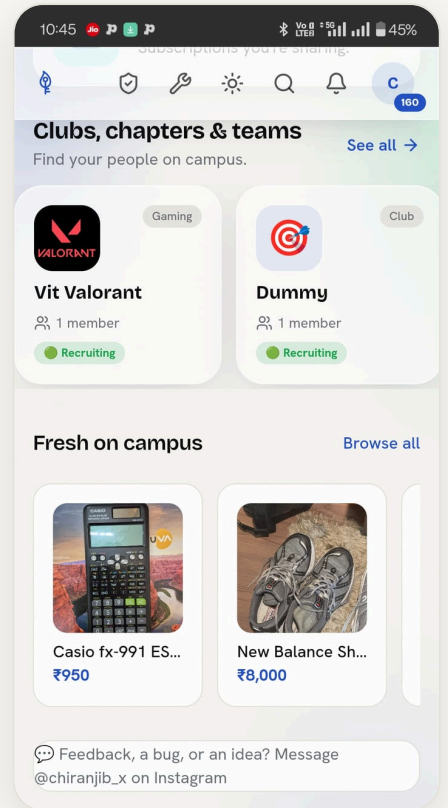

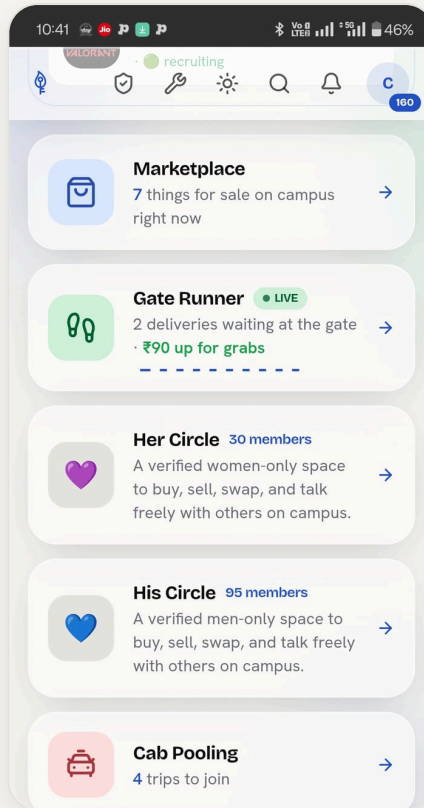

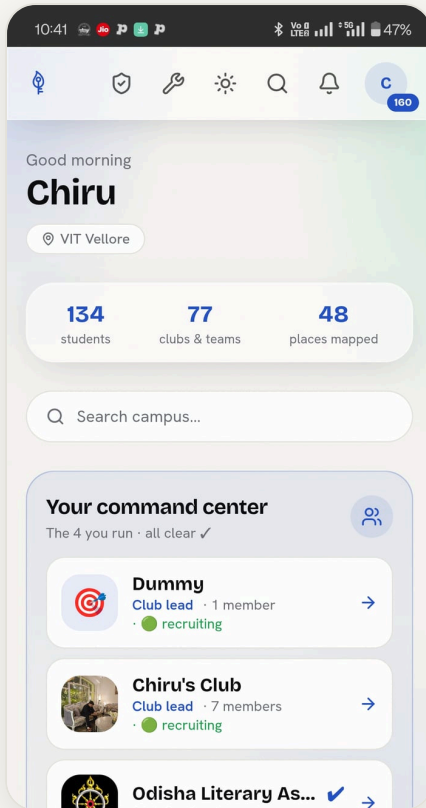

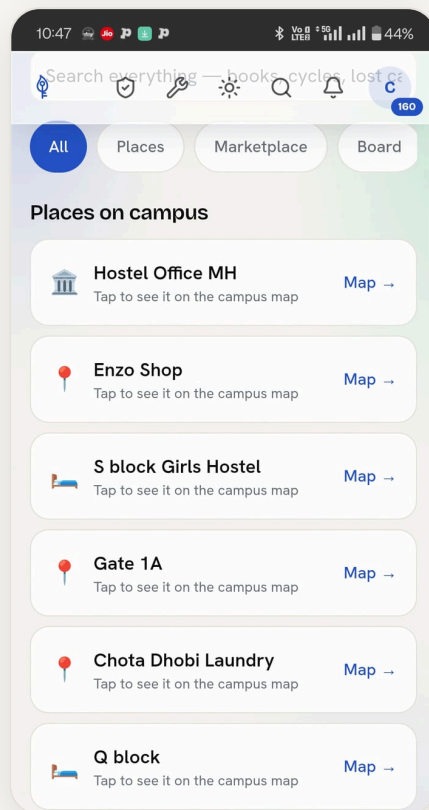

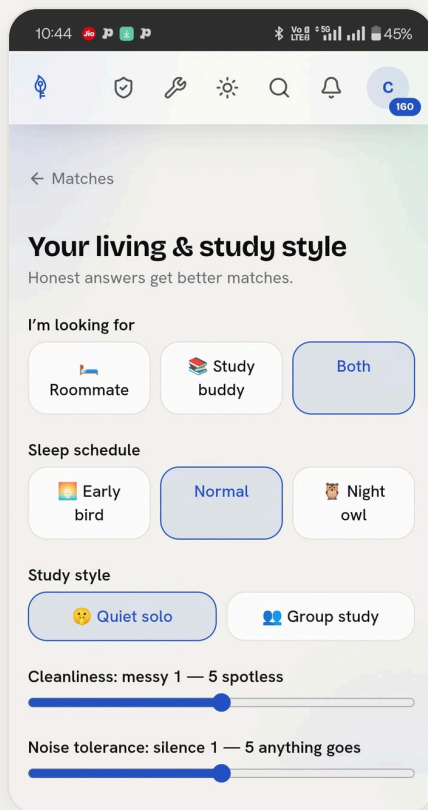

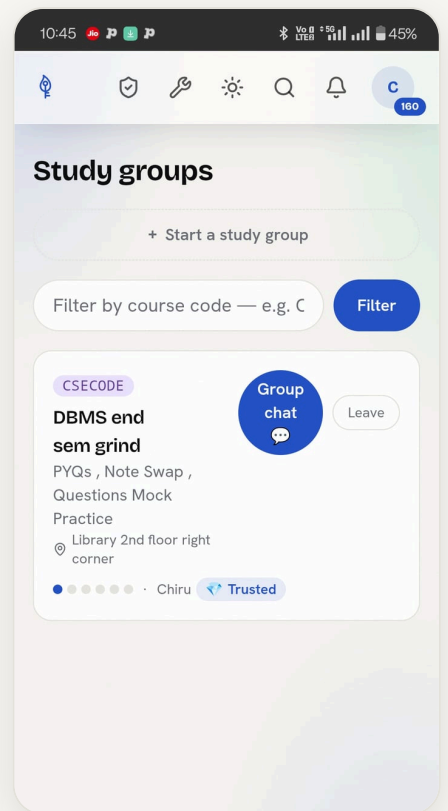

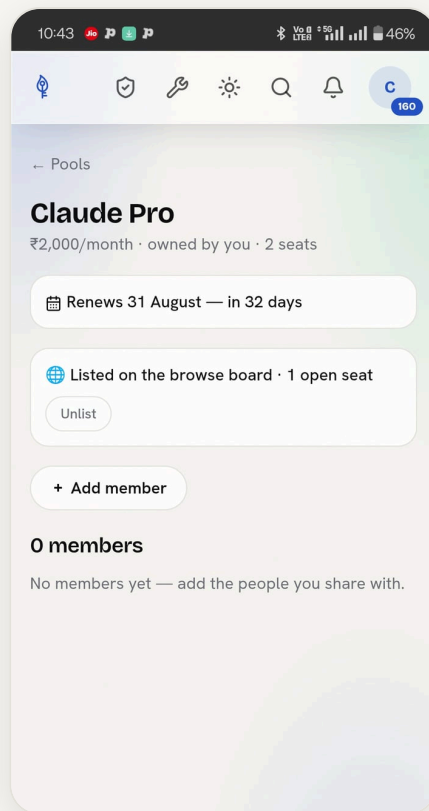

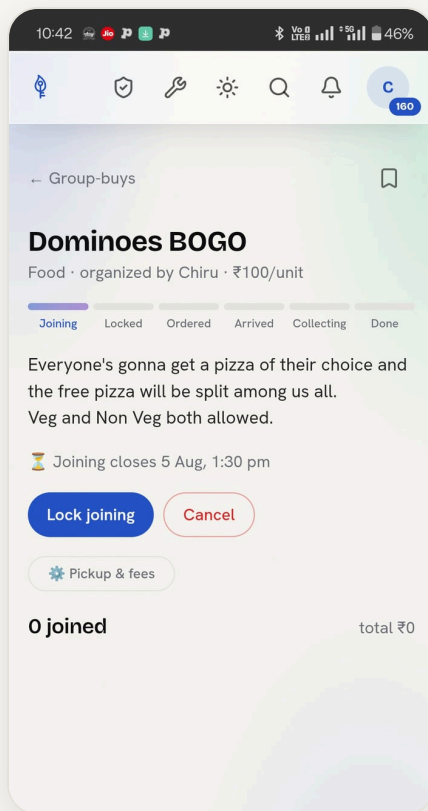

33 free, legal tools — papers, courses, software, project assets.

Lost & found that matches lost posts against found ones for you.

Straight off the device

Ten things that happen every week on this campus

Your parcel is at the gate. You're in a lab till six.

Post it on Gate Runner with a small reward. Someone already walking that way brings it to your block. You both get karma; nobody exchanges a number.

GATE RUNNER**Gravitas is in two weeks and you need an outfit once.**

Her Circle — a verified women-only space. Borrow the lehenga someone wore at Riviera instead of buying one you'll wear once. Invisible to everyone outside it.

HER CIRCLE**You're a club secretary with an event and 400 members.**

One event page, RSVPs, a broadcast to every member, and check-in by scanning college ID barcodes at the door. WhatsApp cannot do the last one at all.

CAMPUSCLUBS**6 AM flight. A cab to the airport is ₹1,600 alone.**

Post the trip. Three students flying the same morning split it four ways. Everyone pays ₹400.

CAB POOLING**You pay for Netflix. Three seats sit empty.**

Open a pool, list the seats, and people from your own campus join mid-cycle at a prorated share. Renewal countdowns, no awkward reminders.

SUBSCRIPTION POOLS

First week. Your class is in a block you've never heard of.

Campus Compass. Search the name or the nickname everyone actually uses, get the pin. No login needed — you can send the link to anyone.

CAMPUS COMPASS

End of semester. Your calculator and cycle are dead weight.

List them in minutes. Buyers are verified students on your campus, so nobody drives across the city and nobody haggles anonymously.

MARKETPLACE

You've attended 74% and the cut-off is 75%.

Timetable does the bunk math and warns you before you skip, not after the report card.

TIMETABLE

You left your ID card in the mess two hours ago.

Post it lost. The board auto-matches your post against everything reported found, so you get told instead of scrolling.

CAMPUS BOARD

You need a paper that's behind a ₹3,000 paywall.

Toolbox has Unpaywall, arXiv, DOAJ and Semantic Scholar, plus a reminder that your library login already covers IEEE and Springer.

TOOLBOX

LOCKED DOWN

Why it is safe to be on it

College email only

Every single person here is a verified student of your college.

No phone numbers

Usernames, not numbers. Your contact stays private until you share it.

Report & block everywhere

Campus moderators act on reports; blocked people can't reach you.

Your college only

Everything you post stays inside your campus — enforced at the database.

College isolation is enforced in the database itself, not in the app code — every table is scoped to your college, so there is no request that can return another campus's data.

One super-app, plus four focused ones

Same verified-student rules, same campus isolation. Pick the one that matches what you need.

LockedIn

The whole campus in one app — everything in this document.
www.lockedincampus.online

Campus Compass

Find any building. Public, no account needed.
map.lockedincampus.online

CampusClubs

For club secretaries: events, rosters, barcode check-in.
clubs.lockedincampus.online

CampusTrade

Just the marketplace and daily-life tools.
trade.lockedincampus.online

GateRunner

Just parcel pickups from the gate.
gate.lockedincampus.online

Android app

Installed, it can tell you the moment someone claims your parcel or replies to you. The website cannot.
